(Over 100 Other Best Western Properties)

NATURE'S MIST™ DEODORIZATION SYSTEM

WHAT IT IS! HOW IT WORKS...

NATURE'S MIST™ is a two component natural deodorization process which neutralizes odors on contact. The first component is a liquid compound comprised of over 2 dozen highly concentrated plant extracts. Each molecule of NATURE'S MIST™ liquid "bonds" with odor molecules to neutralize even the most pungent of odors (smoke, body odor, food odor, vomit, urine, mildew, etc.).

The second component is a sophisticated atomizing sprayer that generates thousands of microscopic pressurized droplets, allowing the NATURE'S MIST™ liquid to reach hidden areas where odors reside (mattresses, pillows, bedspreads, carpets, acoustic ceiling, HVACs), but are difficult to clean.

 **HOW FAST?** Deodorizing a guest room with NATURE'S MIST™ may take 12-20 minutes. After spraying, a pleasant "forest" fragrance may remain for an additional 20 minutes, then the room will simply become "fresh", without any odor.

 **EFFECTIVE!** With our high-tech, high pressure applicator, NATURE'S MIST™ reaches difficult areas where odors reside (mattresses, acoustic ceilings, HVAC systems) but are difficult to clean. The NATURE'S MIST™ deodorization process uses essential plant extracts which neutralize even the most pungent odors:

- Cigarette (AND cigar) Smoke
- Vomit
- New Construction Odors
- Body Odor
- Urine
- Pet Odors
- Food Odor
- Mildew/Mold
- Stale Air

 **LONG LASTING!** NATURE'S MIST™ leaves no residue yet creates a residual barrier, successfully eliminating odors for weeks.

- **Better for the Environment**
Biodegradable, no hazardous chemicals
- **Better for Employees and Guests**
Non toxic, low or zero odor
- **Better for the Bottomline**
Room conversions for less than 30¢!

 **SAFE!** No masking agents, No hazardous substances, No ozone.

If It Works, It Must be NATURE'S MIST™!
